

<-----> Business Tool <----->

Installation Process

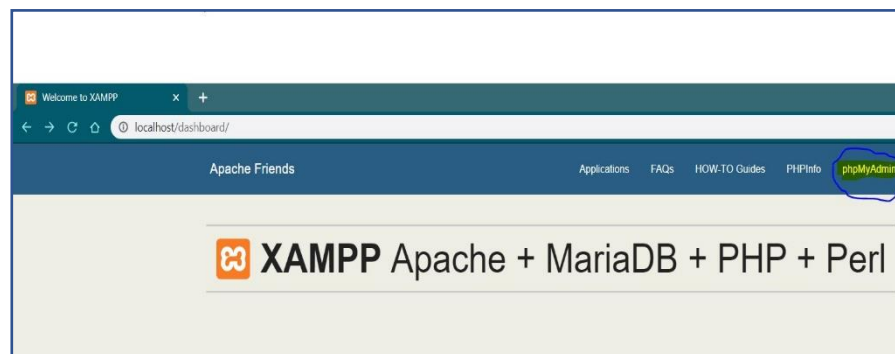

Step 1: Unzip the file to a specified folder

Step 2: Install Xampp (32/64 bit) if not installed before. N.B(Required)

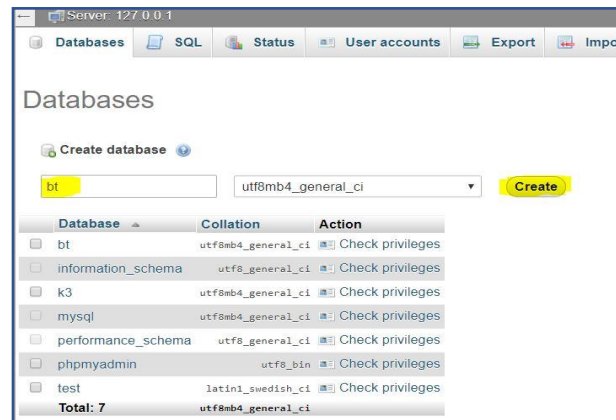

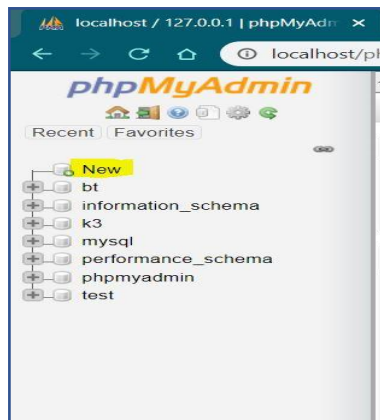

Step 3: Open Xampp -> Start Apache -> Start MySQL

Step 4: Open any browser -> Type: Localhost -> phpMyAdmin

Step 5: Create a Database Schema named as bt -> New -> Type bt -> Create

Step 6: Import the schema from the extracted folder -> Import -> Choose -> Go

The screenshot shows the phpMyAdmin 'Import' interface. The 'File to import:' section is active, displaying instructions for file formats and a 'Choose File' button. A file selection dialog is open, showing a file named 'bt.sql' with a size of 6 KB. The dialog includes a search bar, a file type filter set to 'All Files (*.*)', and 'Open' and 'Cancel' buttons.

Importing into the current server

File to import:

File may be compressed (gzip, bzip2, zip) or uncompressed.
A compressed file's name must end in `[format].[compression]`. Example: `.sql.zip`

Browse your computer: **Choose File** No file chosen (Max: 40MiB)

You may also drag and drop a file on any page.

Character set of the file: `utf-8`

Partial import:

A compressed file's name must end in `[format].[compression]`. Example: `.sql.zip`

Browse your computer: **Choose File** **bt.sql** (Max: 40MiB)

You may also drag and drop a file on any page.

Character set of the file: `utf-8`

Partial import:

☒ Allow the interruption of an import in case the script detects it is close to the PHP timeout

Skip this number of queries (for SQL) starting from the first one:

Other options:

☒ Enable foreign key checks

Format:

`SQL`

Format-specific options:

SQL compatibility mode: `NONE`

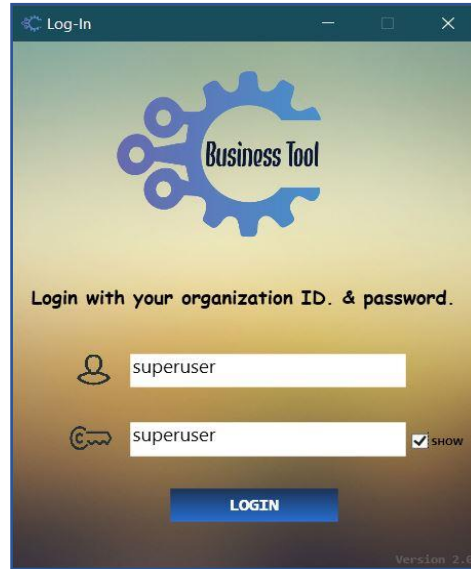

☒ Do not use `AUTO_INCREMENT` for zero values

Go

Step 7: Install the .exe file named as BTv2.exe

Step 8: Run the program

Step 9: Log in as super user (id: superuser password: superuser)

Step 10: Insert your own ID as Admin in employee list option. It will give you a random password. If you wish you can change it further. After that login with your own id and delete the super user from employee list.

****No activation needed****
